

QF-2A CO2 VALVE

200111075

Inlet Thread	PZ27.8
Outlet Thread	G5/8-14
Dip Tube Thread	M12X1
Working Pressure	15MPa/20MPa
Safety Device	20.25-22.5MPa(27-30MPa)
DN	7

Features

- Automated testing process under ISO9001 ensures quality.
- High leak integrity performance through 100% tests.
- Positive operation can be achieved by mechanical link of the upper and lower spindle.
- Safety relief device is equipped for relieving gas while there is excessive pressure.
- Quick and easy operation due to ergonomic design.
- Heavy-duty forged brass body for durability and high pressure.
