

CGA320 VALVE

200111037

Features

- Automated testing process under ISO9001 ensures quality.
- High leak integrity performance through 100% tests.
- Positive operation can be achieved by mechanical link of the upper and lower spindle.
- Safety relief device is equipped for relieving gas while there is excessive pressure.
- Quick and easy operation due to ergonomic design.
- Heavy-duty forged brass body for durability and high pressure.

Inlet Thread	1 1/8-12UNF
Outlet Thread	CGA320/0.825-14NGO-RH
Dip Tube Thread	1/2-18UNS
Working Pressure	1800PSI
Safety Device	2700PSI-3000PSI
Gas Type	CO2
DN	7
