

ZX-2S-04 VALVE

200111076

Features

- Automated testing process under ISO9001 ensures quality.
- High leak integrity performance through 100% tests.
- Positive operation can be achieved by mechanical link of the upper and lower spindle.
- Safety relief device is equipped for relieving gas while there is excessive pressure.
- Quick and easy operation due to ergonomic design.
- Heavy-duty forged brass body for durability and high pressure.

Inlet Thread	1.125-12UNF
Outlet Thread	W21.8-14
Dip Tube Thread	M12X1.25
Working Pressure	15MPa
Safety Device	20.25-22.5MPa
Gas Type	CO2
DN	4
