

ZX-2S-24 VALVE

200111079

Features

- Automated testing process under ISO9001 ensures quality.
- High leak integrity performance through 100% tests.
- Positive operation can be achieved by mechanical link of the upper and lower spindle.
- Temperature relief device is equipped.
- Quick and easy operation due to ergonomic design.
- Heavy-duty forged brass body for durability and high pressure.

Inlet Thread	1-BS341
Outlet Thread	G5/8-14-LH-INT
Working Pressure	3MPA
Safety Device	100°C±5°C
Gas Type	C2H2
DN	5
